

■ TechCorp AI Report

2026-07-23 12:35

Here is a rewritten version of the text in a more readable format:

****TechCorp IT Support Policy****

****1. Password Policy****

- * All employees must create strong passwords containing at least 12 characters.
- * Passwords must include uppercase letters, lowercase letters, numbers, and special characters.
- * Employees must change their passwords every 90 days.
- * Passwords must not be shared with other employees.
- * Multi-factor authentication (MFA) is required for accessing company systems remotely.

****2. Remote Access Policy****

- * Employees working remotely must use the company VPN connection.
- * The VPN provides secure access to internal company resources.
- * Employees should avoid connecting to company systems using public unsecured Wi-Fi networks.

****3. Technical Support****

- * Employees experiencing technical problems should contact the IT Support Team.
- * When reporting an issue, employees should provide:
 - + A description of the problem
 - + Screenshots of error messages
 - + The device name
 - + The time the issue occurred

****4. Hardware Requests****

- * Employees who need new laptops, monitors, or other equipment must submit a hardware request ticket.

- * The IT department reviews requests based on business needs and available resources.

****5. Software Installation****

- * Employees cannot install unauthorized software on company computers.

- * All software installations must be approved by the IT department.

****6. Security Guidelines****

- * Employees should lock their computers when leaving their desks.

- * Suspicious emails should be reported immediately to the security team.

- * Employees must not open unknown email attachments.

****7. Vacation and Leave System****

- * Employees can request vacation through the HR system.

- * Managers must approve leave requests before employees take time off.

- * The HR department maintains employee leave records.
